# PRESIDENTS REPORT

January—February 2010

Welcome one and all to another decade. 2010 will become a very important year in the history of this club. It is this year of course that this club, in conjunction with the Classic club, will host the Leyland P76 Nationals at Motto Farm, near Raymond Terrace, in the Hunter Valley. At time of writing this report there is about 10 weeks until the big event and the time is flying by quickly.

NatCom has been working very hard to make this a memorable event for all and, hopefully, a profitable one for both the Sydney clubs. This event and the success of it are extremely important to the future of this club and I know I can count on the support of everyone of our club members. Some of you may be asked to help out in different ways over the course of the weekend but by far the best way you can show your support for the club is simply to attend. Yep, the best way to help is to come and have a good time with a bunch of other Pnuts from all over Australia and New Zealand. So if you haven't already registered to attend the 2010 Nationals, get your registration in quick. Remember you don't have to stay at the Motto Farm Resort; alternatives could be in a Caravan Park or camping. Both are close by to where we will be based. If you are likely to travel alone, sharing rooms at Motto Farm may be possible but we must know in advance. The Leyland P76 Nationals only occur every 2 years and as they move all over the country they don't come so close to home very often. I missed out on going to the 2006 Nationals in Cootamundra and I have regretted it ever since so don't miss out.

Our Christmas "Berowra To The Beach" run was a blast. Great weather and great company. Congratulations to Michael and Corrina Nugent and family in taking the 2009 Presidents Trophy. They were the only crew to clean sheet the run with no points lost. The hastily organised "Picnic In The Park" with UK Journalist Richard Gunn and friends Deidre and Chloe was also a great success with a combination of NSW Owners and Classic Club members turning up in Australia's finest. We even had Paul Van Looks very nice Leyland Marina Coupe. Richard, who is Editor-at-Large of Classic Car Weekly magazine in the UK, was very impressed with his first time in a P76. His story of the day that is going in the CCW mag is being reprinted in the National Magazine "Anything But Average"

I recently ran into an old Owners and Sporting Club member James Garrod. We had a great time catching up on old times. Unfortunately his health isn't what it used to be but I hope we will see him on the odd club outing this year.

Speaking of club outings, there are a couple of those coming up. The Michael Livingstone Memorial Run and Jamberoo Park club run are both in February. They should both be great days out. On the rally front, the Kosciuszko Classic is in early March followed by the Oakville Bushfire Brigade Family and Display Day and that brings us just 2 weeks to the Nationals.

The February meeting means that I have only 6 months left as your President. I will have been in this position for 5 years and it is time to pass the baton to someone else. Too long in the one job is neither good for the person or the club. There may be others also coming up on there 5 years so a serious rethink about the Committee for next year is required. We need fresh blood with fresh ideas to keep the club firing on all cylinders.

Till next time.

Steve Maher

# THE EDITORS SAY..

Recently I took a week off work and went for a driving and golfing holiday around NSW. I was approaching Broken Hill when I remembered hearing a story about the P76 which was used for a tyre commercial. Someone once told me that the body of the car, which was lifted off the chassis in the ad (due to the stickiness of the tyres holding to the road), had been dumped beside the road somewhere near Broken Hill and was still there to this day.

The next morning I thought, well, I might as well have a look while I'm in the area. The town of Silverton, about 20km west of Broken Hill seemed a good bet because it is where 9 out of 10 films set in the Australian outback are shot. Sure enough, after driving through the 39 dips (don't ask—apparently it is a local joke), I found the shell. It was in a scrap yard just off the side of the road on the outskirts of town, with a "D" shackle still welded to a lifting frame inside the car. I particularly like the way that someone has tried to pry the bonnet open from the front. You can just see where they have bent it.

The bonnet cable unfortunately didn't work so I couldn't see the id plate, but I can tell you it was a Bold as Brass column auto deluxe, with a parchment interior, but black bucket seats and 23,962 km on the clock.

I was going to have a beer in the local pub, but I decided not to for a couple of reasons. Firstly, it was 7.30 in the morning and secondly, given the car out the front, I wasn't sure if it would be safe to go in.

# PICNIC IN THE PARK

Back in early November 2009, whilst out and about doing my graffiti removal stuff, I received a phone call from a lady with a special request. It wasn't a graffiti call, it was a P76 call and one with a difference. Now I've had calls before about publicity for the P76 and our club but not from a lady representing a journalist outside Australia. Deidre Cowan-Brown is the Aussie girlfriend of UK journalist Richard Gunn and Deidre rang to see if we could do something at short notice for her boyfriend Richard who was on his way to Australia in December to do a bunch of stories for the UK based magazine Classic Car Weekly. Richard is their Editor-at-Large and really wanted to do a story on the "mythical beast" the Leyland P76. Who were we to say no?

Finding a suitable date so close to Christmas was going to be tricky, trying to fit in with Richards busy schedule and our own Christmas activities. The first plan was for Richard and Deidre to join us on our Christmas "Berowra To The Beach" run but they were booked to be in Canberra for a big classic English car show. We managed to settle on December 20 for a "Picnic in the Park".

Parramatta Park was chosen as a central location and a nice place to have a picnic as so the word went out "Calling All P76s" from both our club and the P76 Classic car Club. 7 P76 owners and 1 Marina owner answered the call and didn't we put on a good show. In attendance we had Marty in his Corinthian Blue Deluxe V8, me in the Chrystal White Super V8, Tony and Kay De Luca in their Chrystal White Executive, Classic Club member Paul Van Look and his Bold As Brass Marina 1750 Coupe, Jason and Kyle Birmingham in Jasons Plum Loco Deluxe V8 taxi, Michael Nugent in his almost Spanish Olive Super V8, Greg Bryant and daughter Mia in Greg's Super V8 and finally Greg's Mum Denise all the way from Oberon in her Country Cream Super V8. All I can say is "What a lovely bunch of coconuts".

Richard was very impressed and spent along time interviewing each and every owner, learning all he can in the time available about the P76 and the Aussie Marina, also snapping away lots of photos.

Another of Richards requests was to drive a good original P76 and do a "Classic Car Road Test" for a separate story in the magazine. This request was fulfilled by Tony and Kay De Luca. Their 90 odd thousand mile old Executive, which ironically was originally a Leyland press fleet car, was the perfect example for him to drive. Richard and Tony were gone for nearly an hour. Richard was enjoying the drive so much he was reluctant to hand it back to Tony. This part of the day eventually came to an end and before we parted company Richard and Deidre thanked the club for organising a great day at short notice.

From Parramatta Park Richard, Deidre and myself travelled to the home of John Bryson. John of course is an internationally renowned rally driver and navigator having navigated for some of the Worlds best rally drivers including our own Evan Green and the great Andrew Cowan. Naturally we best know him as one half of the Dynamic Duo that almost won the worlds toughest rally, the 1974 World Cup Rally, in a P76 and the custodian of that same car.

A couple of hours was spent with the Bryson family, for which we are grateful to them, deep in discussion about International rallying, P76s and John's new book which will be out this year. A great way to end a great day. When Richard returns to Australia for his next visit he says an Austin Kimberley and Force 7 are on his must see list. Thanks Richard and Deidre for your time. You're not to bad a bloke for a Pom and a journo.

# THINKING SMALL

The big news on the model front is of course that the much-anticipated P76 Deluxe has been finished and is now in our possession. And what a brilliant job our model builder, Rob Bender, has done. For those catching up on the news of the Deluxe model it is a base model V8 Deluxe with bench front seat, column shift gearbox. It of course has the correct Deluxe hubcaps and single headlight front end. The finished product would look fantastic next to your Trax Super and/or Targa.

Due to the unqualified success of the Force 7 project we increased the production run from 76 to 100 which means all the P76 clubs are automatically allocated 11 models first up. 6 from our club have already been sold so if you want one and haven't got one yet, get in quick or you may miss out. We will not be doing the Deluxe sedan again so this is your only chance. Price has remained the same at \$75 for each kit. We have been able to extend the professional

model building and painting service as with the Force 7 only the price has had to go up to \$65 for completely finished model mounted on a plinth in its own display case.

Other P76 clubs have been ordering already with WA, QLD, ACT and New Zealand clubs getting their orders in so the models are slowly flowing out the door. As per the Force 7, model number 76 will be auctioned at the Nationals at Easter. I'm sure it will be very sought after.

At this point I must thank Marty Stockwell for dipping into his personal

savings to help the club pay for all the models. We aren't that flash with cash and couldn't afford it ourselves. Thanks again Uncle Marty. Having said that we need to get the money in as quick as we can so we can give Marty his money back.

Moving on, the next big project is the wagon. The model is 95% finished but won't become available until the Deluxes are all sold. The one thing that our club can't afford is to do is run 2 projects of this size concurrently. I have seen the wagon model in production and it is as good if not better than the Force 7. I can't wait until it comes out.

The last model project on the go at the moment is the P76 Rallye, which is a code 3 from the Trax Targa. I am only getting 20 done and 10 have already been allocated. The price of these is \$80 each plus you need to supply the donor Trax Targa. This project is not a club project but one of my own organising. I am only getting 20 decal kits made and once their gone, their gone. Don't forget; get your orders in quick.

Steve Maher

# PRESIDENTS TROPHY 2009

## BEROWRA TO THE BEACH

The 2009 Presidents Trophy event was once again an Observation Run this time running from Berowra in Sydneys northern suburbs to Patonga Beach on the Central Coast mostly via the Old Pacific Highway. As the current President of this celebrated club it was my job to organise the Presidents trophy event although it wasn't all my own doing. Our Activities Officer, Shane Fox, came up with the destination and lunch spot, which turned out to be a great place for a swim on a hot Summers day also. I also enlisted the help of Marty Stockwell. Marty and I set the Observation Run which was around 65kms. Thank you very much for your help Shane and Marty.

Seven P76s found their way to the Berowra start which was where the old F3 tollgates used to be. Those turning up to compete were Glenn and Barbara Gray, Tony and Kay De Luca, Greg Bryant and family, Horst Reimann, Brian Hooper and Andy in Shannon Whartons latest buy in the form of a Bitter Apricot Super V8 one owner which he bought from Alan Torrence, Michael and Corrina Nugent and finally Jason and Kyle Birmingham. Shannon and Kate Wharton and kids were there in Shannons CM Valiant wagon, Matt Gray and friend in some Japanese thing, Marty Stockwell in his BMW Touring, Shane Fox and family in their SUV and of course me in a P with a bunch of my kids. Naturally Marty and I couldn't compete as we knew the course and questions but everyone else was in. My son Alex took on the job of navigator for Horst as he was by himself. Shannon and Shanes families stayed at Patonga Beach where they had been camping all weekend while Shannon and Shane teamed up in the big Val.

Trophy proudly on display.

The run was pretty straight forward, up the Old Pacific Highway to Gosford and then turn off to Patonga Beach. It was quite amazing when you realise that not long before the P76 was released, the Old Pacific Highway was the main road north to Queensland. No where near as quick as the F3 but loads more interesting.

At the finish, right on Patonga Beach, the results were calculated and the winners announced. Naturally the winner would have the most correct answers and any tie break would be determined by furthest cleanest then the tie breaker test which was a reversing exercise.

The driver had to reverse his car as close as possible to a lustre cone (witches hat) without hitting it. Not an easy task in a big car with a big boot. In the end no tie breakers were needed as there was one clear winner with 100% score getting all 17 questions correct. And the winner of the 2009 President Trophy is Michael Nugent and family. Congratulations to the Nugent family on a job well done.

Thanks to everyone who helped put the day together and all those who took part in the day. I think everyone had fun with a little competition to spice it up.

Steve Maher

CAMS      Payment for affiliation to CAMS to be paid

**Meeting Closed:** 9.35pm

# ***THE A TO Z OF WHO OWNS WHAT***

Many things have changed in the automotive world since the Leyland P76 was a new car, not the least the ownership of many of the brands of cars we see on the road today. This list of all brands available in Australia in 2010 showing their principal shareholder was compiled by the people at NRMA and published in their recent Open Road issue. Things aren't always what they seem.
